Choir Detective

Match Words to Notes

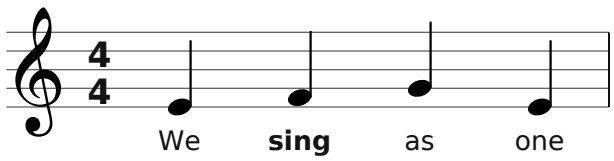

Name: _____ Date: _____

Count the sung syllables in each example. Then count the notes sung on the bold syllable. Write a number on each line. No singing is required.

QUICK CLUES

A hyphen divides a word into syllables: mu-sic has 2 syllables.
Here, a curved slur joins notes sung on one syllable. Keep that syllable going across the slur. Each filled notehead counts as one note.

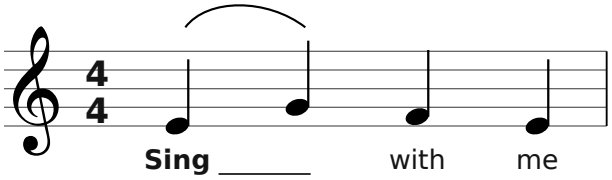

1.

Total sung syllables: **4**

Notes on "sing": **1**

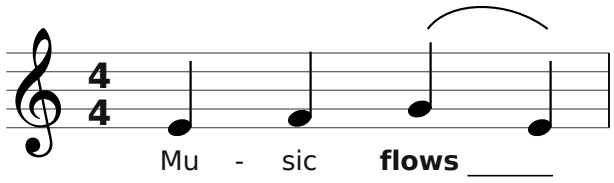

2.

Total sung syllables: **3**

Notes on "Sing": **2**

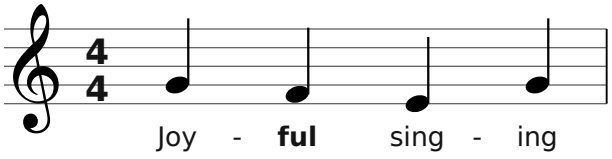

3.

Total sung syllables: **3**

Notes on "flows": **2**

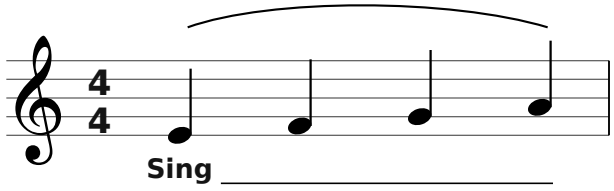

4.

Total sung syllables: **4**

Notes on "ful": **1**

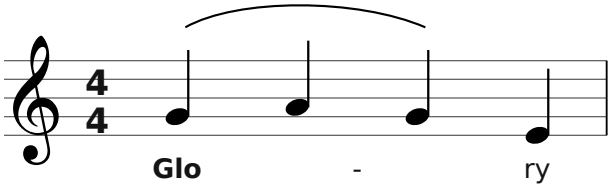

5.

Total sung syllables: **1**

Notes on "Sing": **4**

6.

Total sung syllables: **2**

Notes on "Glo": **3**
