Choir Detective

Match Words to Notes

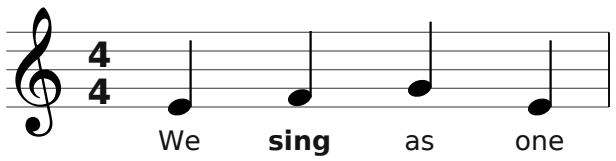

Name: _____ Date: _____

Count the sung syllables in each example. Then count the notes sung on the bold syllable. Write a number on each line. No singing is required.

QUICK CLUES

A hyphen divides a word into syllables: mu-sic has 2 syllables.
Here, a curved slur joins notes sung on one syllable. Keep that syllable going across the slur. Each filled notehead counts as one note.

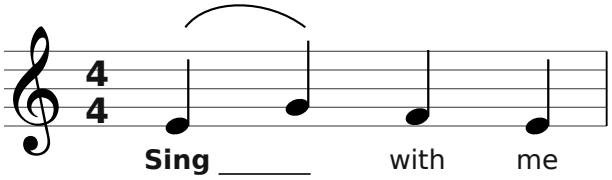

1.

Total sung syllables: _____

Notes on "sing": _____

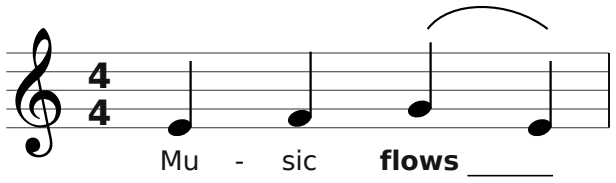

2.

Total sung syllables: _____

Notes on "Sing": _____

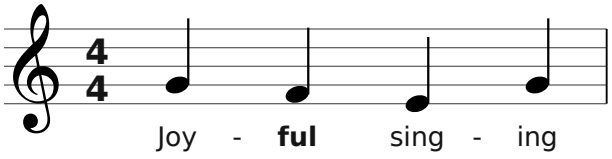

3.

Total sung syllables: _____
