DAW Basics

Parts of a Digital Audio Workstation

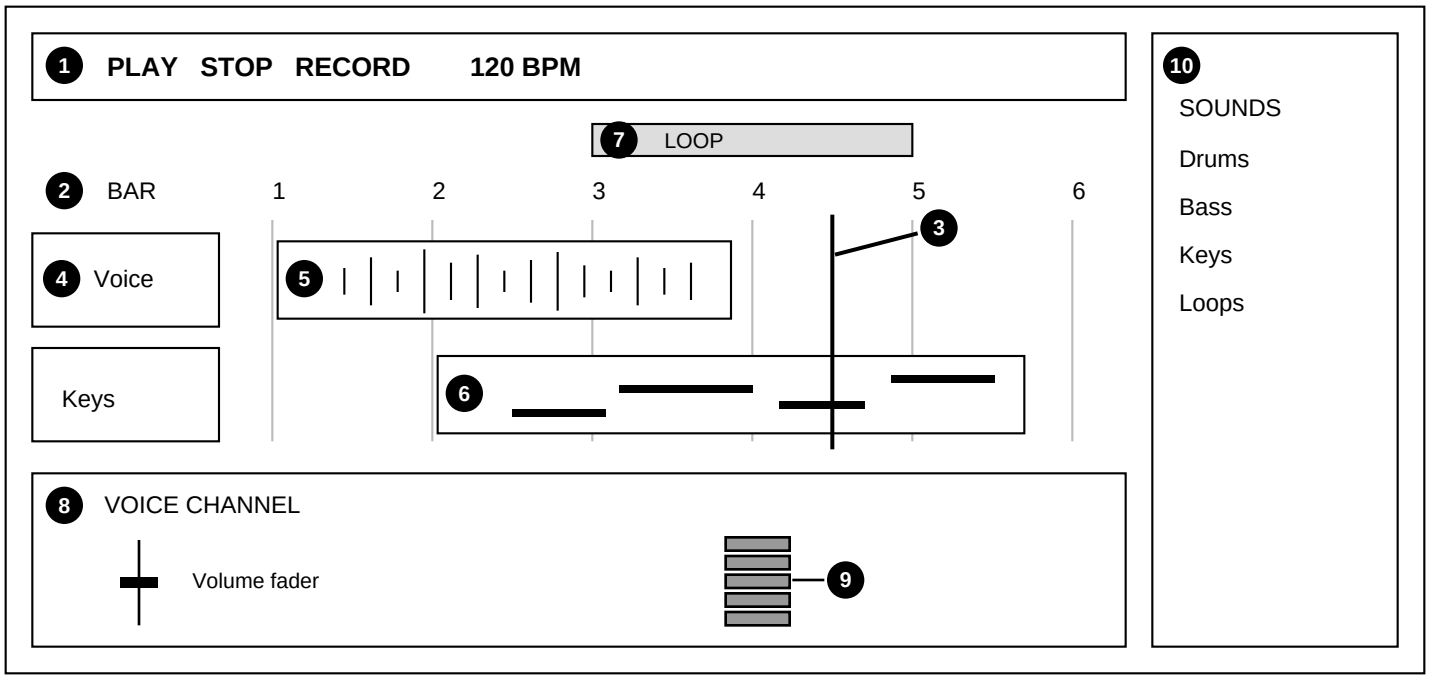

Name _____ Date _____

Match each number to a word-bank term. Use each term once.

Transport controls | Timeline / ruler | Playhead | Track header | Audio clip / waveform

MIDI clip | Loop region | Mixer / channel strip | Level meter | Browser / library

A simplified software-neutral model. Numbers identify features, not a signal-flow order.

Write the term for each numbered feature. Check the pointer for 3 and 9.

1. _____ **2.** _____

3. _____ **4.** _____

5. _____ **6.** _____

7. _____ **8.** _____

9. _____ **10.** _____
